

Exhaust measurements without turbulence

The smog check-AU emissions extractor was especially designed in co-operation with car and truck inspection agencies to provide emissions control without causing faulty test results due to air sample dilution.

- Meets emissions test standards BAR-97 and TRGS-554
- Handles all sampling probe types
- Air volume adjustable damper
- Adjustable light weight floor stand
- Crush resistant exhaust hose
- High visibility yellow/black hose

TECHNICAL DATA

PlymoVent Smog check-AU system

Prod. no.	Description
AU-150	Exhaust extractor for cars

Note: Hose and fan must be ordered separately.

PlymoVent reserves the right to make design and technical changes.
